Kevin ZHANG

Web Developer

👤 Profile

Front end developer with 2 years of experience in website & web application design and development. Highly familiar with UI/UX design trends and web solutions. My career objective is to gain a professional position where I will continue to practice and improve my Front-end skills as well as developing all relative skills such as UCD/Data-Driven design, TDD, and React development so I can contribute to both individual and the business ongoing success.
